

Which USB memory sticks will work with Tofino?

- 2018-02-15 - Tofino

Tofino requires USB storage devices that are compatible with revision 2.0 of the USB specification. The device need NOT be a high-speed device, full-speed devices also work.

The following brands are listed in the Tofino CMP manual as being compatible:

- Kingston Data Traveler
- SanDisk cruzer
- Sony Microvault
- Lexar

In addition, we have regularly used the 2 GB and 4GB Verbatim USB memory sticks successfully.
