

Simple Guide to Adding Additional LSMs

Introduction

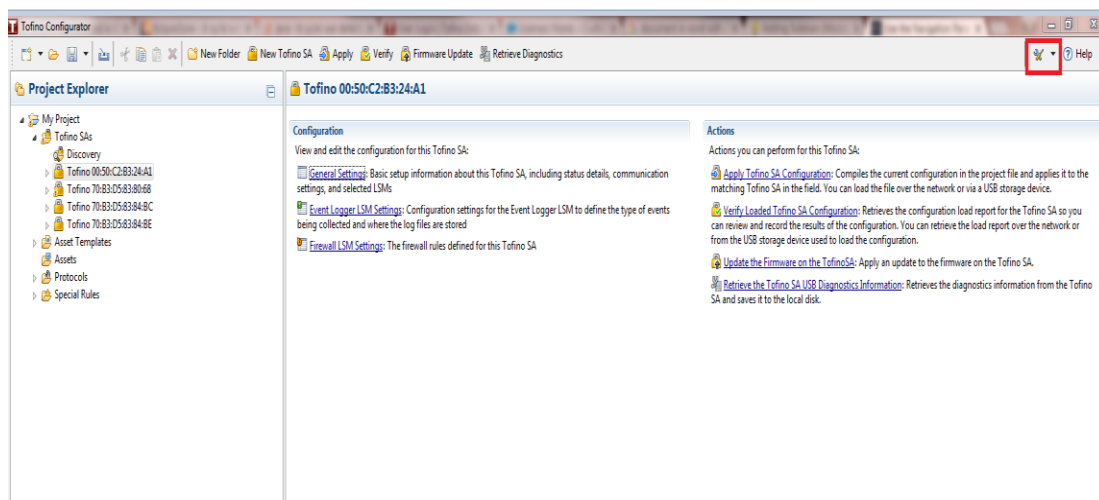

The Tofino Configurator allows you to manage licenses for the Loadable Security Modules (LSMs) used in the Tofino SAs. This is a multi-step process that involves exporting a project summary file to the Tofino Customer Portal; assigning the desired LSM licenses to the Torino SAs in your project; and creating, downloading, and importing a license grant file into the project.

Adding LSM Licenses

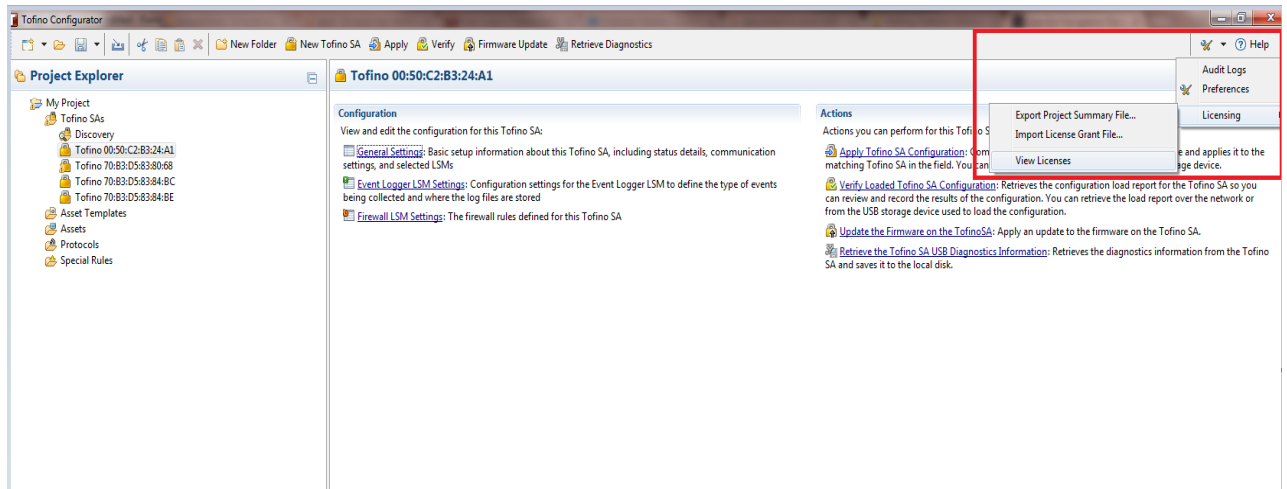

Tofino Configurator

Have your License Activation Key ready:

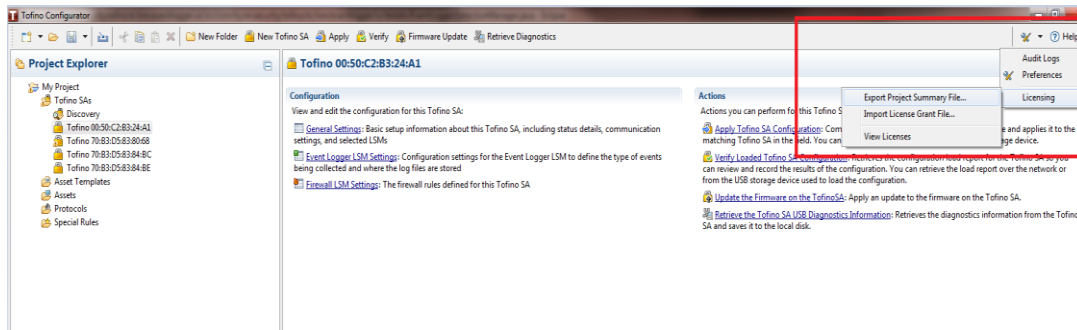

1. When you run TC.exe you will see the *'Preferences'* icon as shown in the screenshot below:

2. Click on the *Down Arrow -> Licenses* to get a list of licensing options.

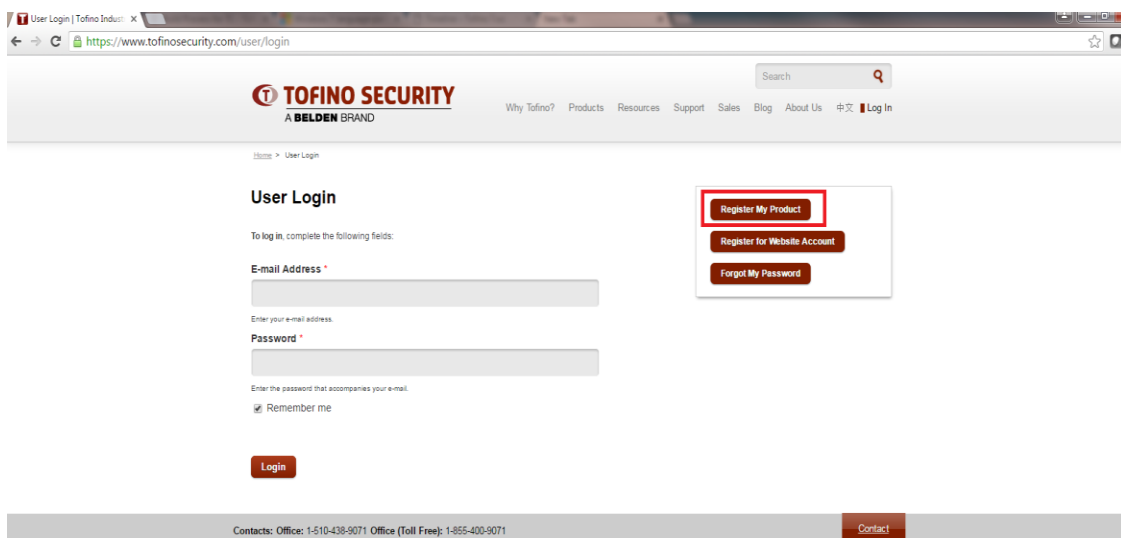

3. Click on Preferences down arrow button and navigate to **Licensing -> Export Project Summary File...**

4. Name the project Summary File and save it to a location on your computer.

Tofino Customer Portal:

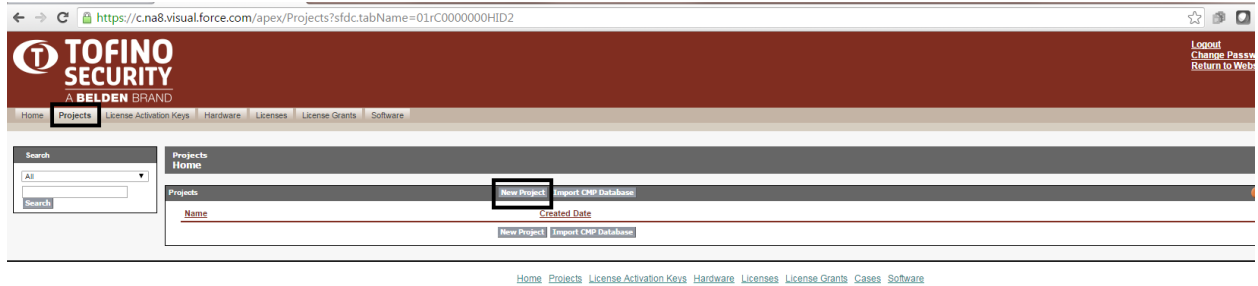

1. Login to the Torino Customer Portal : <http://www.tofinosecurity.com/licensing>
2. Login to your account or click on **Register My Product** to create an account.

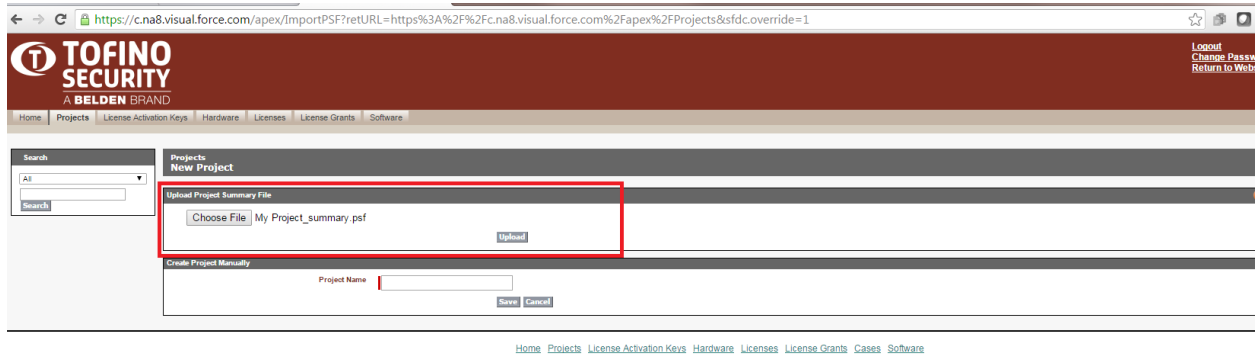

- 3.

Once you login:

- i. Navigate to **Projects** page and click on **New Project**.

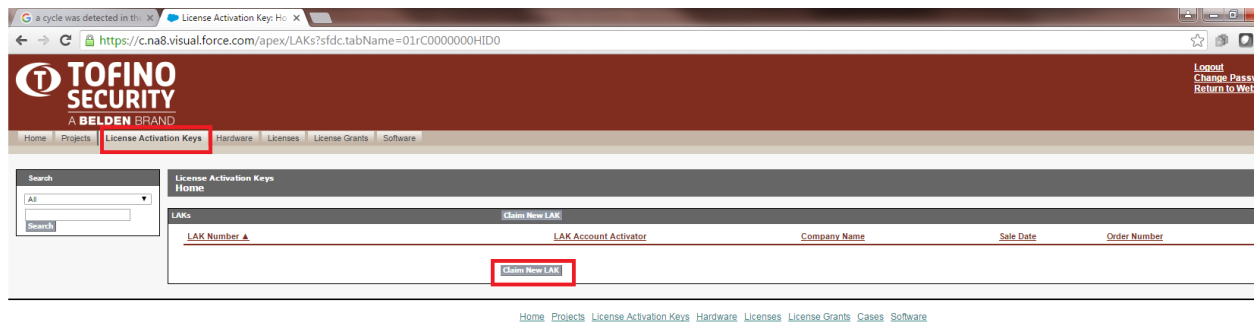

- ii. Upload the project summary file (.psf).

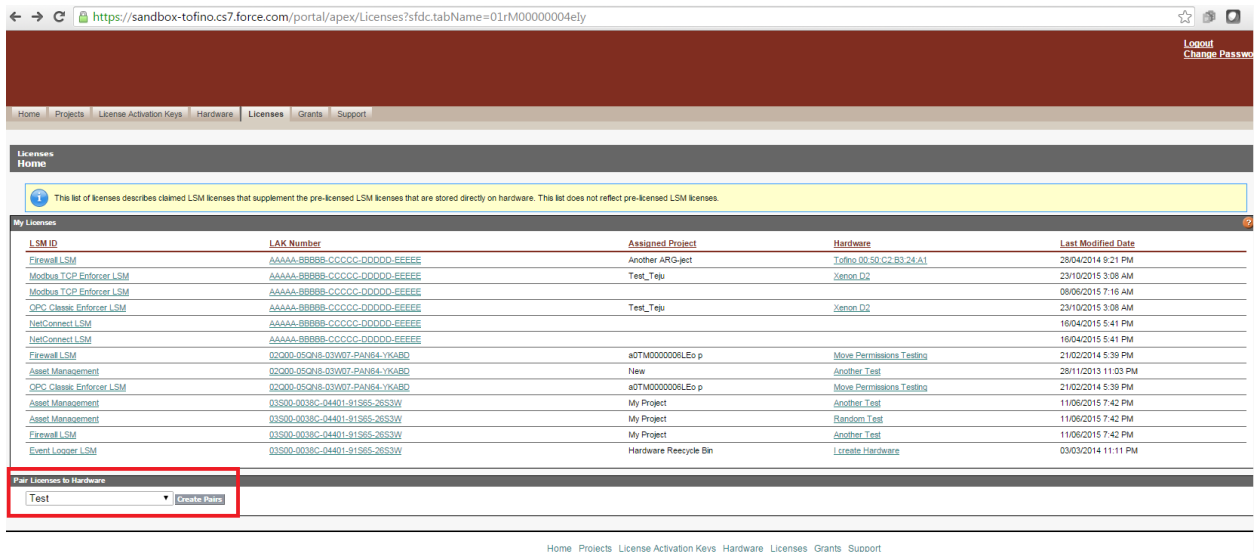

Adding a new LSM

1. Login to the Torino customer Portal : <http://www.tofinosecurity.com/licensing>
2. Navigate to **License Activation Key** tab and hit **Claim New Key**.

3. Please add the **License Activation Key** which is printed on the PDF certificate that you have received for your LSM in the **License Activation Key** box.
4. Hit **Submit**.
5. Navigate to Licenses tab and pick the **Project** from the **Pair Licenses to Hardware** dropdown to which you would like to pair your new LSM.

6. Hit the Create Pairs button to navigate to the following page:

And **Save Pairs**.

- After making all the necessary changes and pairings navigate to the **Grants** tab and pick the Project for which you have made the changes under the **Create License Grant File** dropdown.
- Click on **Create License Grant File** and save the grant file your local machine.
- Import the grant into **Tofino Configurator** through the **Preferences** icon.

- Hit Apply and Save the TC configurations.
